

Ik kan tellen en de lijnen trekken

A number line from 0 to 11. Above the line are five stacks of books. The first stack has 1 book, the second has 3, the third has 5, the fourth has 8, and the fifth has 10. A vertical line is drawn at each number on the number line corresponding to the height of the book stack above it.

Ik kan tellen tot 10

Three trees and seven flags. Below the trees are three boxes containing the numbers 2, 3, and 4. Below the flags are three boxes containing the numbers 7, 6, and 5.

**Boek 3a blok 2:
In de gymzaal**

Ik kan minder tekenen

Two rectangular boxes. The first box contains 7 yellow circles arranged in two rows (4 on top, 3 on bottom). The second box contains 4 red cones arranged in two rows (2 on top, 2 on bottom).

Ik kan tellen en lijnen trekken

A number line from 1 to 10. Below the line are three boxes. The first box (under number 3) shows three children jumping rope. The second box (under number 5) shows five children sitting on a bench. The third box (under number 9) shows nine children in a doorway.

Ik ken de getallenlijn

Seven bags of different heights. The first bag is labeled '8', the second '9', and the sixth '13'. Below the bags is a number line with boxes for the numbers 8, 9, and 13, and empty boxes for the other numbers.

Ik kan splitsen

A stack of 6 books, with 1 red book at the bottom and 5 blue books on top. To its right is a stack of 6 white books. Below the red and blue stack are two boxes containing the numbers 1 and 5. Below the white stack are two empty boxes.
